

I am appalled at the news that Sinclair Broadcasting is forcing their stations to air an anti-Kerry documentary days before the election. Such clear censorship and abuse of the public airwaves (which they use free of charge) is a disturbing portent for where our democracy is heading.

Sinclair is obligated by law to serve the public interest and that requires, in an election year, providing information for both sides of an issue.

This decision seems highly dangerous; Sinclair's actions prove why we need to strengthen our media ownership rules, not weaken them.

Please hold Sinclair accountable for their clearly partisan actions - otherwise the distinction between our democracy and a fascist state will continue to blur. Thank you for your time in this serious matter.
